

# The investing world has changed.

# End of easy money

After years of low inflation and interest rates, both are now higher. When combined with increased global tension this is causing greater market volatility.

# Old strategies are outdated

Bonds no longer offer a safety net for equities...in 3 of the last 10 years stocks and bonds both lost value<sup>2</sup>. The traditional 60/40 investment model is now less reliable.

#### Global equities and fixed income returns (2014 - 2024)

Fees calculated as of 31/12/2022. (1) The High Water Mark is the net asset value per Share on the last Valuation Day of any performance period during which a Performance Fee has been paid or, alternatively, the initial offer price per Share for Shares not yet launched. The Sub-Fund uses a performance fee model based on a comparison of the performance of the Net Asset Value before Performance Fee and the performance of the Reference Asset Value which follows the Index performance and ensure that any underperformance of the Sub-Fund compared to the above-mentioned benchmark and the High Water Mark over a minimum period of five years (or since launch of the Sub-Fund if it has been in existence for less than five years) is clawed back before any Performance Fee becomes payable. #### **SINGAPORE**

Investment involves risks. Past performance information presented is not indicative of the future performance. Dividends are not guaranteed and may fluctuate. Past dividends declared are not indicative of the future distributions. The Fund may pay dividends out of capital and/or effectively out of capital. Payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the NAV per share.

This document is provided by Natixis Investment Managers Singapore Limited (Company Registration No. 199801044D). The Fund has been recognized under the Securities and Futures Act 2001 of Singapore, and Natixis Investment Managers Singapore Limited is appointed as its Singapore Representative and agent for service of process. Past performance of the Fund or managers, and any economic and market trends or forecast, are not necessarily indicative of the future or likely performance of the Fund or the manager. The value of investments and the income accruing, if any, may rise or fall and investors may lose the full amount invested. Investors investing in funds denominated in non-local currency should be aware of the risk of exchange fluctuations that may cause a loss of principal. Investments in the Fund involve risks, which are fully described in the Prospectus. The Fund may use derivatives for hedging and/or investment purposes. The net asset value of the Fund may be subject to volatility as a result of its investment policy and/or use of financial derivative instruments. Investors should consider the Fund's investment objective, risks, charges, expenses and read the Prospectus and Product Highlights Sheet carefully and discuss with their financial adviser to determine if the investment is appropriate for them before investing. However, if an investor chooses not to seek advice from a financial adviser, he/she should consider whether the product is suitable for him/her. The Prospectus is available for collection from Natixis Investment Managers Singapore Limited at 5 Shenton Way, #22-05/06, UIC Building, Singapore 068808 or any appointed Singapore distributor.
