Introduction of gates:

The French Financial Markets Authority (AMF) has updated its policy to facilitate the implementation of liquidity management tools, and gates in particular. This exceptional mechanism allows redemption requests to be temporarily spread over several net asset values when they exceed a certain level, as specified in the Funds' legal documentation. This mechanism is only triggered in situations of unusual liquidity and abnormally high redemption volumes on the liabilities side.

The Funds' management company has decided to incorporate gates into the Funds outlined above.

These changes will take effect on 1 August 2023.

The legal documentation for the UCIs (key information documents (KIDs) and prospectuses) is available from Natixis Investment Managers International: www.im.natixis.com.

It will be sent to you within eight working days of receipt of a written request to:
