6. Changes in the “Use of Derivatives or Other Investment Techniques and Instruments” section for the fixed income and multi-asset Sub-Funds

For transparency purposes, the Board has decided to redefine the Administration Fees in the “Charges and Expenses” section to include a broader range of external and internal expenses.

As a result, required disclosures for fossil gas or nuclear energy investments have been added to the SFDR Annex of each Sub-Fund.

In addition, we have taken this opportunity to increase the minimum percentage of investments that are aligned with the EU Taxonomy for each Sub-Fund. Such an update aims at providing for enhanced transparency and will not have any impact on the way the Sub-Funds are being managed or on their investment strategy.

For Fixed Income and Multi-Asset Sub-Funds, the SFDR Annexes have also been amended to disclose the use of credit default swaps as described in the paragraph 6 above and to clarify the use of derivatives in “#2 Not sustainable” investments for risk management purposes (not for currency risk management purposes only).
