

# Mirova Global Sustainable Equity Fund

Q1 • March 31, 2019

## Fund Highlights

- A high conviction approach that invests in a portfolio of approximately 50 stocks, aiming to outperform a broad global equity index over a full market cycle.
- The thematic approach aims to identify companies believed to offer solutions to the major transitions the world is going through: demographic, environmental, technological and governance.
- Deep fundamental research identifies companies believed to be well-managed, expected to benefit from strong, sustainable competitive advantages, and have demonstrated a solid financial structure while avoiding irresponsible risk.
- Invests in stocks priced at a significant discount to the team's estimate of intrinsic value.
- Aims to maximize exposure to companies with a positive impact on the UN Sustainable Development Goals, while avoiding those whose activities or products inhibit the achievement of the goals.

## Average annualized total returns† (%)

	3 months	YTD	1 year	Life of class 3/31/2016
Class Y	15.14	15.14	6.54	11.88
Class A at NAV	15.02	15.02	6.25	11.61
Class A with 5.75% maximum sales charge	8.40	8.40	0.12	9.43
MSCI World Index (Net) <sup>5</sup>	12.48	12.48	4.01	10.67

## Calendar year returns (%)

	2009	2010	2011	2012	2013	2014	2015	2016 <sup>3</sup>	2017	2018
Class Y	-	-	-	-	-	-	-	-0.70	30.75	-6.32
MSCI World Index (Net) <sup>5</sup>	-	-	-	-	-	-	-	7.89	22.40	-8.71

## Investment return – Hypothetical growth of \$10,000 investment<sup>4</sup>

Performance data shown represents past performance and is no guarantee of, and not necessarily indicative of, future results. Total return and value will vary, and you may have a gain or loss when shares are sold. Current performance may be lower or higher than quoted. For most recent month-end performance, visit [im.natixis.com](http://im.natixis.com).

Performance for other share classes will be greater or less than shown based on differences in fees and sales charges. You may not invest directly in an index.

†Performance for periods less than one year is cumulative, not annualized. Returns reflect changes in share price and reinvestment of dividends and capital gains, if any.

1 As of 02/28/2019. 2 As of the most recent prospectus, the investment advisor has contractually agreed to waive fees and/or reimburse expenses (with certain exceptions) once the expense cap of the fund has been exceeded. This arrangement is set to expire on 04/30/2020. When an expense cap has not been exceeded, the gross and net expense ratios and/or yields may be the same. 3 The calendar year performance shown for 2016 is a partial year of performance since inception on 3/31/16 through 12/31/16. 4 This chart tracks the hypothetical growth of a \$10,000 investment in Class Y shares. Investment returns would be lower for Class A share investments, which are subject to higher fees and may also include sales charges.

Not all share classes are available for purchase by all investors. Class Y shares are available to institutional investors with a minimum initial investment of \$100,000 and through certain wrap-fee programs, retirement plans and investment advisory accounts with no minimum. See the prospectus for more details.

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ used to rank the fund against other funds in the same category. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly excess performance, without any adjustments for loads (frontend, deferred, or redemption fees), placing more emphasis on downward variations and rewarding consistent performance. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star (each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages). Past performance is no guarantee of future results. ©2019 Morningstar, Inc. All Rights Reserved. Company	% of Portfolio
1. United States	58.28
2. Denmark	10.14
3. Germany	5.32
4. France	4.88
5. United Kingdom	3.30

## Risks

**Equity securities** are volatile and can decline significantly in response to broad market and economic conditions. **Foreign and emerging market securities** may be subject to greater political, economic, environmental, credit, currency and information risks. Foreign securities may be subject to higher volatility than US securities, due to varying degrees of regulation and limited liquidity. These risks are magnified in emerging markets. **Investments in small and midsize companies** can be more volatile than those of larger companies. **Sustainable investing** focuses on investments in companies that relate to certain sustainable development themes and demonstrate adherence to environmental, social and governance (ESG) practices; therefore the Fund's universe of investments may be reduced. It may sell a security when it could be disadvantageous to do so or forgo opportunities in certain companies, industries, sectors or countries. This could have a negative impact on performance depending on whether such investments are in or out of favor. **Currency exchange rates** between the US dollar and foreign currencies may cause the value of the Fund's investments to decline.

5 MSCI World Index (Net) is an unmanaged index that is designed to measure the equity market performance of developed markets. It is comprised of common stocks of companies representative of the market structure of developed market countries in North America, Europe, and the Asia/Pacific Region. The index is calculated without dividends, with net or with gross dividends reinvested, in both U.S. dollars and local currencies. 6 Source: GICS Sectors via FactSet Research Systems Inc. Cash and Unassigned allocations are not included. 7 Source: Mirova themes via FactSet Research Systems Inc. Cash allocations not included. 8 Active share indicates the proportion of a portfolio's holdings that are different from the benchmark. A higher active share indicates a larger difference between the benchmark and the portfolio. 9 P/E (Trailing) Ratio is the weighted harmonic average of the price-to-earnings (P/E) ratios of all the stocks in the portfolio. P/E ratio is the ratio of a stock's price to its earnings per share for the trailing twelve months. Does not include options. This excludes negative earnings. 10 P/B (Trailing) Ratio is the weighted harmonic average of the price-to-book (P/B) ratios of all the stocks in the portfolio. P/B ratio is the ratio of a stock's price to its book value per share. This excludes negative earnings. 11 Median market cap provides a measure of the market capitalization value of all the stocks in the portfolio. Market capitalization reflects the total market value of a company, as calculated by multiplying the current share price by the number of outstanding shares. 12 The portfolio is actively managed and holdings are subject to change. References to specific securities or industries should not be considered a recommendation. For current holdings, please visit our website. 13 Assets under management ("AUM"), as reported, may include notional assets, assets serviced, gross assets and other types of non-regulatory AUM. 14 CFA® and Chartered Financial Analyst® are registered trademarks owned by the CFA Institute.

## ESG opinion breakdown (%)

	Fund	Index
Committed	11	5
Positive	65	25
Neutral	23	38
Risk	0	24
Negative	0	7
Unassigned	0	1

The ESG Opinion assesses whether the investment is compatible with the UN Sustainable Development Goals (SDGs).

**Committed:** Contributes very favorably to achieving the SDGs

**Positive:** Contributes positively to achieving the SDGs

**Neutral:** In line with some of the SDGs, but impacts are low or unquantified

**Risk:** Hinders achievement of the SDGs

**Negative:** Strongly opposes achievement of the SDGs

**Not followed:** Not rated by either Mirova or Oekem

The ESG Opinion is designed to assess whether the investment is compatible with the UN SDGs and is based upon the analysis of Mirova and Oekem, a third party. The assessment does not guarantee a profit or protect against a loss, and does not ensure the stability or safety of the overall portfolio.
