Letter from the President

Dear Shareholder:

US stock markets notched gains for the six months ended March 31, 2018, reaching new highs in January before giving up a portion of those gains in February and March. US bond markets declined slightly. The Federal Open Market Committee (the Fed) raised the federal funds rate in December and again in March, to the current level of 1.50%-1.75%, and concerns about the future path of interest rates began to surface.

Developed and emerging market stocks also eked out positive returns, but generally underperformed US equities. Global bonds finished in modestly positive territory. Resurging commodity prices provided a tailwind for the energy and materials sectors, favoring economies that rely on those exports.

US economy strong, but volatility on the rise

The pattern of steady growth continued, and the US remains in a full-employment economy. The unemployment rate of 4.1% was unchanged throughout the period and inflation was only slightly higher. Equities enjoyed a boost from corporate tax cuts in late December and early January, but a combination of factors including trade tariff discussions and geopolitical uncertainty prompted turbulence across global markets through the end of the period.

While the economic picture remains positive, the extraordinarily calm market environment that prevailed throughout 2017 may have run its course. We encourage you to work closely with your financial professional to keep your portfolio allocations aligned with your long-term goals and tolerance for risk.

Performance data shown represents past performance and is no guarantee of, and not necessarily indicative of, future results. Total return and value will vary, and you may have a gain or loss when shares are sold. Current performance may be lower or higher than quoted.

For most recent month-end performance, visit im.natixis.com. Performance for other share classes will be greater or less than shown based on differences in fees and sales charges. You may not invest directly in an index. Performance for periods less than one year is cumulative, not annualized. Returns reflect changes in share price and reinvestment of dividends and capital gains, if any. The table(s) do not reflect taxes shareholders might owe on any fund distributions or when they redeem their shares.

- Class C shares performance assumes a 1% CDSC applied when you sell shares within one year of purchase.
- The Bloomberg Barclays U.S. Corporate High-Yield Bond Index measures the market of USD-denominated, non-investment grade, fixed-rate, taxable corporate bonds. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB/BB or below, excluding emerging market debt. The Bloomberg Barclays U.S. Corporate High-Yield Bond Index was created in 1986, with history backfilled to July 1, 1983, and rolls up into the Bloomberg Barclays U.S. Universal and Global High-Yield Indices.
- Fund performance has been increased by fee waivers and/or expense reimbursements, if any, without which performance would have been lower.
- Expense ratios are as shown in the Fund's prospectus in effect as of the date of this report. The expense ratios for the current reporting period can be found in the Financial Highlights section of this report under Ratios to Average Net Assets. Net expenses reflect contractual expense caps set to expire on 1/31/19. When a Fund's expenses are below the cap, gross and net expense ratios will be the same. See Note 6 of the Notes to Financial Statements for more information about the Fund's expense caps.

- 1 Effective August 31, 2016, the Fund's Retail Class shares and Institutional Class shares were redesignated as Class A shares and Class Y shares, respectively. Accordingly, the returns shown in the table for Class A shares prior to August 31, 2016 are those of Retail Class shares, restated to reflect the sales loads of Class A shares, and the returns in the table for Class Y shares prior to August 31, 2016 are those of Institutional Class shares. Prior to the inception of Retail Class shares (May 28, 2010), performance is that of Institutional Class shares, restated to reflect the higher net expenses and sales loads of Class A shares. Prior to the inception of Class C shares (August 31, 2016), performance is that of Retail Class shares, restated to reflect the higher net expenses and sales loads of Class C shares.
- 2 Class C shares performance assumes a 1% CDSC applied when you sell shares within one year of purchase.
- 3 The Bloomberg Barclays U.S. Intermediate Government/Credit Bond Index includes securities in the intermediate maturity range with in the Government and Credit Indices. The Government Index includes treasuries (i.e., public obligations of the U.S. Treasury that have remaining maturities of more than one year) and agencies (i.e., publicly issued debt of U.S. Government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. Government). The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements.
- 4 The Fund revised its investment strategy on May 28, 2010; performance may have been different had the current investment strategy been in place for all periods shown.
- 5 Fund performance has been increased by fee waivers and/or expense reimbursements, if any, without which performance would have been lower.

PROXY VOTING INFORMATION

A description of the Natixis Funds’ proxy voting policies and procedures is available without charge, upon request, by calling Natixis Funds at 800-225-5478; on the Natixis Funds’ website at im.natixis.com; and on the Securities and Exchange Commission’s (“SEC’s”) website at www.sec.gov. Information regarding how the funds voted proxies relating to portfolio securities the most recent 12-month period ended June 30 is available from the Natixis Funds’ website and the SEC’s website.

QUARTERLY PORTFOLIO SCHEDULES

The Natixis Funds file complete schedules of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Funds’ Forms N-Q are available on the SEC’s website at www.sec.gov and may be reviewed and copied at the SEC’s Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

UNDERSTANDING FUND EXPENSES

As a mutual fund shareholder, you incur different costs: transaction costs, including sales charges (loads) on purchases and contingent deferred sales charges on redemptions, and ongoing costs, including management fees, distribution and/or service fees (12b-1 fees), and other fund expenses. Certain exemptions may apply. These costs are described in more detail in the Funds' prospectuses. The following examples are intended to help you understand the ongoing costs of investing in the Funds and help you compare these with the ongoing costs of investing in other mutual funds.

The first line in the table of each class of Fund shares shows the actual account values and actual Fund expenses you would have paid on a \$1,000 investment in the Fund from October 1, 2017 through March 31, 2018. To estimate the expenses you paid over the period, simply divide your account value by \$1,000 (for example \$8,600 account value divided by \$1,000 = 8.6) and multiply the result by the number in the Expenses Paid During Period column as shown below for your class.

The second line in the table of each class of Fund shares provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid on your investment for the period. You may use this information to compare the ongoing costs of investing in the Fund to other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown reflect ongoing costs only, and do not include any transaction costs, such as sales charges. Therefore, the second line in the table of each fund is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. If transaction costs were included, total costs would be higher.

(†) See Note 2 of Notes to Financial Statements.
(††) Amount shown represents units. One unit represents a principal amount of 100.
(a) Variable rate security. The interest rate adjusts periodically based on; (i) changes in current interest rates and/or prepayments on underlying pools of assets, if applicable, (ii) reference to a base lending rate plus or minus a margin, and/or (iii) reference to a base lending rate adjusted by a multiplier and/or subject to certain floors or caps. Rate as of March 31, 2018 is disclosed.
(b) Variable rate security. Rate as of March 31, 2018 is disclosed.
(c) Security (or a portion thereof) has been designated to cover the Fund's obligations under open derivative contracts.
(d) Level 3 security. Value has been determined using significant unobservable inputs. See Note 3 of Notes to Financial Statements.
(e) Securities classified as fair valued pursuant to the Fund's pricing policies and procedures. At March 31, 2018, the value of these securities amounted to \$2,856,941 or 1.7% of net assets. See Note 2 of Notes to Financial Statements.
(f) Illiquid security.
(g) Payment-in-kind security for which the issuer has the option at each interest payment date of making interest payments in cash or additional principal. For the period ended March 31, 2018, interest payments were made in cash.
(h) Fair valued by the Fund's adviser. At March 31, 2018, the value of these securities amounted to \$1,509,940 or 0.9% of net assets. See Note 2 of Notes to Financial Statements.
(i) The issuer is in default with respect to interest and/or principal payments. Income is not being accrued.
(j) Position is unsettled. Contract rate was not determined at March 31, 2018 and does not take effect until settlement date. Maturity date is not finalized until settlement date.
(k) Securities subject to restriction on resale. At March 31, 2018, the restricted securities held by the Fund are as follows:

- (†) See Note 2 of Notes to Financial Statements.
- (a) Security (or a portion thereof) has been designated to cover the Fund's obligations under open derivative contracts.
- (b) Variable rate security. The interest rate adjusts periodically based on; (i) changes in current interest rates and/or prepayments on underlying pools of assets, if applicable, (ii) reference to a base lending rate plus or minus a margin, and/or (iii) reference to a base lending rate adjusted by a multiplier and/or subject to certain floors or caps. Rate as of March 31, 2018 is disclosed.
- (c) Variable rate security. Rate as of March 31, 2018 is disclosed.
- (d) The Fund's investment in mortgage related securities of Government National Mortgage Association are interests in separate pools of mortgages. All separate investments in securities of each issuer which have the same coupon rate have been aggregated for the purpose of presentation in the Portfolio of Investments.

144A All or a portion of these securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2018, the value of Rule 144A holdings amounted to \$54,154,119 or 30.6% of net assets.

(a) Variable rate security. The interest rate adjusts periodically based on; (i) changes in current interest rates and/or prepayments on underlying pools of assets, if applicable, (ii) reference to a base lending rate plus or minus a margin, and/or (iii) reference to a base lending rate adjusted by a multiplier and/or subject to certain floors or caps. Rate as of March 31, 2018 is disclosed.

(b) Variable rate security. Rate as of March 31, 2018 is disclosed.

(c) Level 3 security. Value has been determined using significant unobservable inputs. See Note 3 of Notes to Financial Statements.

Loomis Sayles Limited Term Government and Agency Fund – (continued)

- (d) Fair valued by the Fund’s adviser. At March 31, 2018, the value of these securities amounted to \$232,384 or less than 0.1% of net assets. See Note 2 of Notes to Financial Statements.
- (e) Security represents right to receive monthly interest payments on an underlying pool of mortgages. Principal shown is the outstanding par amount of the pool held as of the end of the period.
- (f) The Fund’s investment in mortgage related securities of Federal Home Loan Mortgage Corporation, Federal National Mortgage Association and Government National Mortgage Association are interests in separate pools of mortgages. All separate investments in securities of each issuer which have the same coupon rate have been aggregated for the purpose of presentation in the Portfolio of Investments.
- (g) Interest rate represents discount rate at time of purchase; not a coupon rate.
- (h) The Fund’s investment in U.S. Government/Agency securities is comprised of various lots with differing discount rates. These separate investments, which have the same maturity date, have been aggregated for the purpose of presentation in the Portfolio of Investments.

144A All or a portion of these securities are exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2018, the value of Rule 144A holdings amounted to \$34,690,632 or 4.9% of net assets.

(a) Per share net investment income has been calculated using the average shares outstanding during the period.

(b) The amount shown for a share outstanding does not correspond with the aggregate realized and unrealized gain (loss) on investments for the period due to the timing of sales and redemptions of fund shares in relation to fluctuating market values of investments of the Fund.

(c) Had certain expenses not been waived/reimbursed during the period, total returns would have been lower.

(d) Periods less than one year are not annualized.

(e) The investment adviser agreed to waive its fees and/or reimburse a portion of the Fund's expenses during the period. Without this waiver/reimbursement, expenses would have been higher.

(f) Computed on an annualized basis for periods less than one year.

(g) Represents the Fund's portfolio turnover rate for the year ended September 30, 2017.

Notes to Financial Statements

1. Organization. Loomis Sayles Funds I and Loomis Sayles Funds II (the “Trusts” and each a “Trust”) are each organized as a Massachusetts business trust. Each Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. Each Declaration of Trust permits the Board of Trustees to authorize the issuance of an unlimited number of shares of the Trust in multiple series. The financial statements for certain funds of the Trusts are presented in separate reports. The following funds (individually, a “Fund” and collectively, the “Funds”) are included in this report:

Loomis Sayles Funds I:

Loomis Sayles Intermediate Duration Bond Fund (the “Intermediate Duration Bond Fund”)

Loomis Sayles Funds II:

Loomis Sayles High Income Fund (the “High Income Fund”)

Loomis Sayles Limited Term Government and Agency Fund (the “Limited Term Government and Agency Fund”)

Each Fund is a diversified investment company.

The Funds each offer Class A, Class C and Class Y shares. In addition, High Income Fund and Limited Term Government and Agency Fund began offering Class N shares effective November 30, 2016 and February 1, 2017, respectively. Class T shares of the Funds are not currently available for purchase.

Class A shares of Intermediate Duration Bond Fund and High Income Fund are sold with a maximum front-end sales charge of 4.25%. Class A shares of Limited Term Government and Agency Fund are sold with a maximum front-end sales charge of 2.25%. Class C shares do not pay a front-end sales charge, do not convert to any other class of shares, pay higher Rule 12b-1 fees than Class A shares and may be subject to a CDSC of 1.00% if those shares are redeemed within one year of acquisition, except for reinvested distributions. Class N and Class Y shares do not pay a front-end sales charge, a CDSC or Rule 12b-1 fees. Class N shares are offered with an initial minimum investment of \$1,000,000. Class Y shares are offered with an initial minimum investment of \$100,000. Certain categories of investors are exempted from the minimum investment amounts for Class N and Class Y as outlined in the relevant Funds’ prospectus.

Most expenses can be directly attributed to a Fund. Expenses which cannot be directly attributed to a Fund are generally apportioned based on the relative net assets of each of the funds in Natixis Funds Trust I, Natixis Funds Trust II, Natixis Funds Trust IV and Gateway Trust (“Natixis Funds Trusts”), Loomis Sayles Funds I and Loomis Sayles Funds II (“Loomis Sayles Funds Trusts”), and Natixis ETF Trust. Expenses of a Fund are borne *pro rata* by the holders of each class of shares, except that each class bears expenses unique to that class (such as the Rule 12b-1 fees applicable to Class A and Class C) and transfer agent fees for High Income Fund and Limited Term Government

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

and Agency Fund are borne collectively for Class A, Class C and Class Y, and individually for Class N. In addition, each class votes as a class only with respect to its own Rule 12b-1 Plan. Shares of each class would receive their *pro rata* share of the net assets of a Fund if the Fund were liquidated. The Trustees approve separate distributions from net investment income on each class of shares.

2. Significant Accounting Policies. The following is a summary of significant accounting policies consistently followed by each Fund in the preparation of its financial statements. The Funds' financial statements follow the accounting and reporting guidelines provided for investment companies and are prepared in accordance with accounting principles generally accepted in the United States of America which require the use of management estimates that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. Management has evaluated the events and transactions subsequent to period-end through the date the financial statements were issued and has determined that there were no material events that would require disclosure in the Funds' financial statements.

a. Valuation. Fund securities and other investments are valued at market value based on market quotations obtained or determined by independent pricing services recommended by the adviser and approved by the Board of Trustees. Fund securities and other investments for which market quotations are not readily available are valued at fair value as determined in good faith by the adviser pursuant to procedures approved by the Board of Trustees, as described below. Market value is determined as follows:

Debt securities and unlisted preferred equity securities are valued based on evaluated bids furnished to the Fund by an independent pricing service or bid prices obtained from broker-dealers. Senior loans are valued at bid prices supplied by an independent pricing service, if available. Listed equity securities (including shares of closed-end investment companies and exchange-traded funds) are valued at the last sale price quoted on the exchange where they are traded most extensively or, if there is no reported sale during the day, the closing bid quotation as reported by an independent pricing service. Securities traded on the NASDAQ Global Select Market, NASDAQ Global Market and NASDAQ Capital Market are valued at the NASDAQ Official Closing Price ("NOCP"), or if lacking an NOCP, at the most recent bid quotations on the applicable NASDAQ Market. Unlisted equity securities (except unlisted preferred equity securities) are valued at the last sale price quoted in the market where they are traded most extensively or, if there is no reported sale during the day, the closing bid quotation as reported by an independent pricing service. If there is no last sale price or closing bid quotation available, unlisted equity securities will be valued using evaluated bids furnished by an independent pricing service, if available. In some foreign markets, an official close price and a last sale price may be available from the foreign exchange

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

or market. In those cases, the official close price is used. Broker-dealer bid prices may be used to value debt and unlisted equity securities and senior loans where an independent pricing service is unable to price a security or where an independent pricing service does not provide a reliable price for the security. Forward foreign currency contracts are valued utilizing interpolated rates determined based on information provided by an independent pricing service. Futures contracts are valued at the most recent settlement price on the exchange on which the adviser believes that, over time, they are traded most extensively. Centrally cleared credit default swap agreements are valued at settlement prices of the clearinghouse on which the contracts were traded or prices obtained from broker-dealers. Bilateral credit default swaps are valued based on mid prices (between the bid price and the ask price) supplied by an independent pricing service.

Fund securities and other investments for which market quotations are not readily available are valued at fair value as determined in good faith by the adviser pursuant to procedures approved by the Board of Trustees. The Funds may also value securities and other investments at fair value in other circumstances such as when extraordinary events occur after the close of a foreign market but prior to the close of the New York Stock Exchange. This may include situations relating to a single issuer (such as a declaration of bankruptcy or a delisting of the issuer's security from the primary market on which it has traded) as well as events affecting the securities markets in general (such as market disruptions or closings and significant fluctuations in U.S. and/or foreign markets). When fair valuing its securities or other investments, the Funds may, among other things, use modeling tools or other processes that may take into account factors such as securities or other market activity and/or significant events that occur after the close of the foreign market and before the time the Fund's net asset value ("NAV") is calculated. Fair value pricing may require subjective determinations about the value of a security, and fair values used to determine a Fund's NAV may differ from quoted or published prices, or from prices that are used by others, for the same securities. In addition, the use of fair value pricing may not always result in adjustments to the prices of securities held by a Fund.

Illiquid securities for which market quotations are readily available and have been evaluated by the adviser are considered and classified as fair valued securities pursuant to the Funds' pricing policies and procedures.

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

As of March 31, 2018, securities held by the Funds were fair valued as follows:

<u>Fund</u>	<u>Securities classified as fair valued</u>	<u>Percentage of Net Assets</u>	<u>Securities fair valued by the Fund's adviser</u>	<u>Percentage of Net Assets</u>
High Income Fund	\$2,856,941	1.7%	\$1,509,940	0.9%
Limited Term Government and Agency Fund	—	—	232,384	Less than 0.1%

b. Investment Transactions and Related Investment Income. Investment transactions are accounted for on a trade date plus one day basis for daily NAV calculation. However, for financial reporting purposes, investment transactions are reported on trade date. Dividend income is recorded on ex-dividend date, or in the case of certain foreign securities, as soon as a Fund is notified, and interest income is recorded on an accrual basis. Interest income is increased by the accretion of discount and decreased by the amortization of premium, if applicable. Periodic principal adjustments for inflation-protected securities are recorded to interest income. Negative principal adjustments (in the event of deflation) are recorded as reductions of interest income to the extent of interest income earned, not to exceed the amount of positive principal adjustments on a cumulative basis. In determining net gain or loss on securities sold, the cost of securities has been determined on an identified cost basis. Investment income, non-class specific expenses and realized and unrealized gains and losses are allocated on a *pro rata* basis to each class based on the relative net assets of each class to the total net assets of the Fund.

c. Foreign Currency Translation. The books and records of the Funds are maintained in U.S. dollars. The values of securities, currencies and other assets and liabilities denominated in currencies other than U.S. dollars are translated into U.S. dollars based upon foreign exchange rates prevailing at the end of the period. Purchases and sales of investment securities, income and expenses are translated into U.S. dollars on the respective dates of such transactions.

Net realized foreign exchange gains or losses arise from sales of foreign currency, changes in exchange rates between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the value of assets and liabilities, other than investment securities, as of the end of the fiscal period, resulting from changes in exchange rates. Net realized foreign exchange gains or losses and the net change in unrealized foreign exchange gains or losses are disclosed in the Statements of Operations. For federal income tax purposes, net realized foreign exchange gains or losses are characterized as ordinary income and may, if the funds have net losses, reduce the amount of income available to be distributed by the Funds.

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

The values of investment securities are presented at the foreign exchange rates prevailing at the end of the period for financial reporting purposes. Net realized and unrealized gains or losses on investments reported in the Statements of Operations reflect gains or losses resulting from changes in exchange rates and fluctuations which arise due to changes in market prices of investment securities. For federal income tax purposes, a portion of the net realized gain or loss on investments arising from changes in exchange rates, which is reflected in the Statements of Operations, may be characterized as ordinary income and may, if the Funds have net losses, reduce the amount of income available to be distributed by the Funds.

During the six months ended March 31, 2018, the amount of income available to be distributed by High Income Fund has been reduced by \$214,847, as a result of losses arising from changes in exchange rates.

The Funds may use foreign currency exchange contracts to facilitate transactions in foreign-denominated investments. Losses may arise from changes in the value of the foreign currency or if the counterparties do not perform under the contracts' terms.

d. Forward Foreign Currency Contracts. The Funds may enter into forward foreign currency contracts, including forward foreign cross currency contracts to acquire exposure to foreign currencies or to hedge the Funds' investments against currency fluctuation. A contract can also be used to offset a previous contract. These contracts involve market risk in excess of the unrealized gain or loss reflected in the Funds' Statements of Assets and Liabilities. The U.S. dollar value of the currencies a Fund has committed to buy or sell represents the aggregate exposure to each currency a Fund has acquired or hedged through currency contracts outstanding at period end. Gains or losses are recorded for financial statement purposes as unrealized until settlement date. Contracts are traded over-the-counter directly with a counterparty. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. Certain contracts may require the movement of cash and/or securities as collateral for the Funds' or counterparty's net obligations under the contracts.

e. Futures Contracts. The Funds may enter into futures contracts. Futures contracts are agreements between two parties to buy and sell a particular instrument or index for a specified price on a specified future date.

When a Fund enters into a futures contract, it is required to deposit with (or for the benefit of) its broker an amount of cash or short-term high-quality securities as "initial margin." As the value of the contract changes, the value of the futures contract position increases or declines. Subsequent payments, known as "variation margin," are made or received by a Fund, depending on the price fluctuations in the fair value of the contract and the value of cash or securities on deposit with the broker. The aggregate principal

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

amounts of the contracts are not recorded in the financial statements. Fluctuations in the value of the contracts are recorded in the Statements of Assets and Liabilities as an asset (liability) and in the Statements of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses). Realized gain or loss on a futures position is equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed, minus brokerage commissions. When a Fund enters into a futures contract certain risks may arise, such as illiquidity in the futures market, which may limit a Fund's ability to close out a futures contract prior to settlement date, and unanticipated movements in the value of securities or interest rates.

Futures contracts are exchange-traded. Exchange-traded futures contracts are standardized and are settled through a clearing house with fulfillment supported by the credit of the exchange. Therefore, counterparty credit risks to the Funds are reduced; however, in the event that a counterparty enters into bankruptcy, a Fund's claim against initial/variation margin on deposit with the counterparty may be subject to terms of a final settlement in bankruptcy court.

f. Swap Agreements. The Funds may enter into credit default swaps. A credit default swap is an agreement between two parties (the "protection buyer" and "protection seller") to exchange the credit risk of an issuer ("reference obligation") for a specified time period. The reference obligation may be one or more debt securities or an index of such securities. The Funds may be either the protection buyer or the protection seller. As a protection buyer, the Funds have the ability to hedge the downside risk of an issuer or group of issuers. As a protection seller, the Funds have the ability to gain exposure to an issuer or group of issuers whose bonds are unavailable or in short supply in the cash bond market, as well as realize additional income in the form of fees paid by the protection buyer. The protection buyer is obligated to pay the protection seller a stream of payments ("fees") over the term of the contract, provided that no credit event, such as a default or a downgrade in credit rating, occurs on the reference obligation. The Funds may also pay or receive upfront premiums. If a credit event occurs, the protection seller must pay the protection buyer the difference between the agreed upon notional value and market value of the reference obligation. Market value in this case is determined by a facilitated auction whereby a minimum number of allowable broker bids, together with a specified valuation method, are used to calculate the value. The maximum potential amount of undiscounted future payments that a Fund as the protection seller could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement.

The notional amounts of swap agreements are not recorded in the financial statements. Swap agreements are valued daily and fluctuations in the value are recorded in the Statements of Operations as change in unrealized appreciation (depreciation) on swap agreements. Fees are accrued in accordance with the terms of

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

the agreement and are recorded in the Statement of Assets and Liabilities as fees receivable or payable. When received or paid, fees are recorded in the Statement of Operations as realized gain or loss. Upfront premiums paid or received by the Funds are recorded on the Statements of Assets and Liabilities as an asset or liability, respectively, and are amortized or accreted over the term of the agreement and recorded as realized gain or loss. Payments made or received by the Funds as a result of a credit event or termination of the agreement are recorded as realized gain or loss.

Swap agreements are privately negotiated in the over-the-counter (“OTC”) market and may be entered into as a bilateral contract or centrally cleared (“centrally cleared swaps”). Bilateral swap agreements are traded between counterparties and, as such, are subject to the risk that a party to the agreement will not be able to meet its obligations. In a centrally cleared swap, immediately following execution of the swap agreement, the swap agreement is novated to a central counterparty (the “CCP”) and the Fund faces the CCP through a broker. Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash or securities in an amount that varies depending on the size and risk profile of the particular swap. Subsequent payments, known as “variation margin,” are made or received by the Fund based on the daily change in the value of the centrally cleared swap agreement. For centrally cleared swaps, the Fund’s counterparty credit risk is reduced as the CCP stands between the Fund and the counterparty. The Funds cover their net obligations under outstanding swap agreements by segregating or earmarking cash or securities.

No swap agreements were held by the Funds during the six months ended March 31, 2018.

g. When-Issued and Delayed Delivery Transactions. The Funds may enter into when-issued or delayed delivery transactions. When-issued refers to transactions made conditionally because a security, although authorized, has not been issued. Delayed delivery refers to transactions for which delivery or payment will occur at a later date, beyond the normal settlement period. The price of when-issued and delayed delivery securities and the date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. The security and the obligation to pay for it are recorded by the Funds at the time the commitment is entered into. The value of the security may vary with market fluctuations during the time before the Funds take delivery of the security. No interest accrues to the Funds until the transaction settles.

Delayed delivery transactions include those designated as To Be Announced (“TBAs”) in the Portfolios of Investments. For TBAs, the actual security that will be delivered to fulfill the transaction is not designated at the time of the trade. The security is “to be announced” 48 hours prior to the established trade settlement date. Certain transactions require the Funds or counterparty to post cash and/or securities as

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

collateral for the net mark-to-market exposure to the other party. The Funds cover their net obligations under outstanding delayed delivery commitments by segregating or earmarking cash or securities at the custodian.

Purchases of when-issued or delayed delivery securities may have a similar effect on the Funds' NAV as if the Funds' had created a degree of leverage in the portfolio. Risks may arise upon entering into such transactions from the potential inability of counterparties to meet their obligations under the transactions. Additionally, losses may arise due to changes in the value of the underlying securities.

There were no when-issued or delayed delivery securities held by the Funds as of March 31, 2018.

h. Federal and Foreign Income Taxes. The Trusts treat each Fund as a separate entity for federal income tax purposes. Each Fund intends to meet the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute to its shareholders substantially all of its net investment income and any net realized capital gains at least annually. Management has performed an analysis of each Fund's tax positions for the open tax years as of March 31, 2018 and has concluded that no provisions for income tax are required. The Funds' federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service. Management is not aware of any events that are reasonably possible to occur in the next six months that would result in the amounts of any unrecognized tax benefits significantly increasing or decreasing for the Funds. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws and accounting regulations and interpretations thereof.

A Fund may be subject to foreign withholding taxes on investment income and taxes on capital gains on investments that are accrued and paid based upon the Fund's understanding of the tax rules and regulations that exist in the countries in which the Fund invests. Foreign withholding taxes on dividend and interest income are reflected on the Statements of Operations as a reduction of investment income, net of amounts eligible to be reclaimed. Dividends and interest receivable on the Statements of Assets and Liabilities are net of foreign withholding taxes. Foreign withholding taxes where reclaims have been or will be filed are reflected on the Statements of Assets and Liabilities as tax reclaims receivable. Capital gains taxes paid are included in net realized gain (loss) on investments in the Statements of Operations. Accrued but unpaid capital gains taxes are reflected as foreign taxes payable on the Statements of Assets and Liabilities, if applicable, and reduce unrealized gains on investments. In the event that realized gains on investments are subsequently offset by realized losses, taxes paid on realized gains may be returned to a Fund. Such amounts, if applicable, are reflected as foreign tax rebates receivable on the Statements of Assets and Liabilities and are recorded as a realized gain when received.

i. Dividends and Distributions to Shareholders. Dividends and distributions are recorded on ex-dividend date. The timing and characterization of certain income and capital gain distributions are determined in accordance with federal tax regulations, which may differ from accounting principles generally accepted in the United States of America. Permanent differences are primarily due to differing treatments for book and tax purposes of items such as foreign currency gains and losses, corporate actions, premium amortization, defaulted and/or non-income producing securities, paydown gains and losses, return of capital distributions received, convertible bonds and distribution re-designations. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to capital accounts. Temporary differences between book and tax distributable earnings are primarily due to deferred Trustees' fees, wash sales, premium amortization, futures contracts mark-to-market, corporate actions, contingent payment debt instruments, convertible bonds, defaulted and/or non-income producing securities and return of capital distributions received. Amounts of income and capital gain available to be distributed on a tax basis are determined annually, and at other times during the Funds' fiscal year as may be necessary to avoid knowingly declaring and paying a return of capital distribution. Distributions from net investment income and short-term capital gains are considered to be distributed from ordinary income for tax purposes.

The tax characterization of distributions is determined on an annual basis. The tax character of distributions paid to shareholders during the year ended September 30, 2017 was as follows:

<u>Fund</u>	<u>2017 Distributions Paid From:</u>		
	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Total</u>
High Income Fund	\$ 8,205,898	\$ —	\$ 8,205,898
Intermediate Duration Bond Fund	4,972,573	39,533	5,012,106
Limited Term Government and Agency Fund	13,667,184	—	13,667,184

Differences between these amounts and those reported in the Statements of Changes in Net Assets are primarily attributable to different book and tax treatment for short-term capital gains.

Late-year ordinary and post-October capital loss deferrals*	<u><u>\$ (2,258)</u></u>	<u><u>\$(1,131,587)</u></u>	<u><u>\$ —</u></u>

* Under current tax law, capital losses, foreign currency losses, and losses on passive foreign investment companies and contingent payment debt instruments after October 31 or December 31, as applicable, may be deferred and treated as occurring on the first day of the following taxable year. High Income Fund and Intermediate Duration Bond Fund are deferring foreign currency losses and capital losses, respectively.

As of March 31, 2018, unrealized depreciation on a tax basis was as follows:

	High Income Fund	Intermediate Duration Bond Fund	Limited Term Government and Agency Fund
Unrealized depreciation			
Investments	\$(4,554,146)	\$(2,504,295)	\$(14,693,184)

Amounts exclude certain adjustments that will be made at the end of the Fund's fiscal year for tax purposes. Such adjustments are primarily due to wash sales.

Differences between these amounts and those reported in the preceding table are primarily attributable to foreign currency mark-to-market.

j. Loan Participations. High Income Fund may invest in loans to corporate, governmental or other borrowers. The Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans. A loan is often administered by a bank or other financial institution that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. When investing in a loan participation, (i) a Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the party from whom the Fund has purchased the participation and only upon receipt by that party of payments from the borrower and (ii) a Fund generally has no right to enforce compliance by the borrower with the terms of the loan agreement or to vote on matters arising under the loan agreement. Thus, a Fund may be subject to credit risk both of the party from whom it purchased the loan participation and the borrower and the Fund may have minimal control over the terms of any loan modification. When a Fund purchases assignments from lenders, it acquires direct rights against the borrower on the loan. Loan agreements and participations outstanding at the end of the period, if any, are listed in each applicable Fund's Schedule of Investments.

k. Repurchase Agreements. Each Fund may enter into repurchase agreements, under the terms of a Master Repurchase Agreement, under which each Fund acquires securities as collateral and agrees to resell the securities at an agreed upon time and at an agreed upon price. It is each Fund's policy that the market value of the collateral for repurchase agreements be at least equal to 102% of the repurchase price, including interest. Certain repurchase agreements are tri-party arrangements whereby the collateral is held in a segregated account for the benefit of the Fund and on behalf of the counterparty. Repurchase agreements could involve certain risks in the event of default or insolvency of the counterparty, including possible delays or restrictions upon a Fund's ability to dispose of the underlying securities. As of March 31, 2018, each Fund, as applicable, had investments in repurchase agreements for which the value of the related collateral exceeded the value of the repurchase agreement. The gross value of repurchase agreements is included in the Statements of Assets and Liabilities for financial reporting purposes.

l. Due from Brokers. Transactions and positions in certain futures and forward foreign currency contracts are maintained and cleared by registered U.S. broker/dealers pursuant to customer agreements between the Funds and the various broker/dealers. The due from brokers balance in the Statements of Assets and Liabilities for High Income Fund represents cash pledged as collateral for forward foreign currency contracts. The due from broker balance in the Statements of Assets and Liabilities for

Intermediate Duration Bond Fund represents cash pledged as initial margin for futures contracts. In certain circumstances the Fund's use of cash held at brokers is restricted by regulation or broker mandated limits.

m. Securities Lending. The Funds have entered into an agreement with State Street Bank and Trust Company ("State Street Bank"), as agent of the Funds, to lend securities to certain designated borrowers. The loans are collateralized with cash or securities in an amount equal to at least 105% or 102% of the market value (including accrued interest) of the loaned international or domestic securities, respectively, when the loan is initiated. Thereafter, the value of the collateral must remain at least 102% of the market value (including accrued interest) of loaned securities for U.S. equities and U.S. corporate debt; at least 105% of the market value (including accrued interest) of loaned securities for non-U.S. equities; and at least 100% of the market value (including accrued interest) of loaned securities for U.S. Government securities, sovereign debt issued by non-U.S. Governments and non-U.S. corporate debt. In the event that the market value of the collateral falls below the required percentages described above, the borrower will deliver additional collateral on the next business day. As with other extensions of credit, the Funds may bear the risk of loss with respect to the investment of the collateral. The Funds invest cash collateral in short-term investments, a portion of the income from which is remitted to the borrowers and the remainder allocated between the Funds and State Street Bank as lending agent.

For the six months ended March 31, 2018, none of the Funds had loaned securities under this agreement.

n. Indemnifications. Under the Trusts' organizational documents, their officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. Additionally, in the normal course of business, the Funds enter into contracts with service providers that contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

3. Fair Value Measurements. In accordance with accounting standards related to fair value measurements and disclosures, the Funds have categorized the inputs utilized in determining the value of each Fund's assets or liabilities. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – prices determined using other significant inputs that are observable either directly, or indirectly through corroboration with observable market data (which could include quoted prices for similar assets or liabilities, interest rates, credit risk, etc.); and

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

- Level 3 – prices determined using significant unobservable inputs when quoted prices or observable inputs are unavailable such as when there is little or no market activity for an asset or liability (unobservable inputs reflect each Fund's own assumptions in determining the fair value of assets or liabilities and would be based on the best information available).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Funds' pricing policies and procedures are recommended by the adviser and approved by the Board of Trustees. Debt securities are valued based on evaluated bids furnished to the Funds by an independent pricing service. Broker-dealer bid prices may be used if an independent pricing service either is unable to price a security or does not provide a reliable price for a security. Broker-dealer bid prices for which the Funds do not have knowledge of the inputs used by the broker-dealer are categorized in Level 3. All security prices, including those obtained from an independent pricing service and broker-dealer bid prices, are reviewed on a daily basis by the adviser, subject to oversight by Fund management and the Board of Trustees. If the adviser, in good faith, believes that the price provided by an independent pricing service is unreliable, broker-dealer bid prices may be used until the price provided by the independent pricing service is considered to be reliable. Reliability of all security prices, including those obtained from an independent pricing service and broker-dealer bid prices, is tested in a variety of ways, including comparison to recent transaction prices and daily fluctuations, amongst other validation procedures in place. Securities for which market quotations are not readily available are valued at fair value as determined in good faith by the Funds' adviser pursuant to procedures approved by the Board of Trustees. Fair valued securities may be categorized in Level 3.

4. Derivatives. Derivative instruments are defined as financial instruments whose value and performance are based on the value and performance of an underlying asset, reference rate or index. Derivative instruments that High Income Fund and Intermediate Duration Bond Fund used during the period include forward foreign currency contracts and futures contracts, respectively.

High Income Fund is subject to the risk that changes in foreign currency exchange rates will have an unfavorable effect on the value of Fund assets denominated in foreign currencies. The Fund may enter into forward foreign currency contracts for hedging purposes to protect the value of the Fund's holdings of foreign securities. The Fund may also use forward foreign currency contracts to gain exposure to foreign currencies, regardless of whether securities denominated in such currencies are held in the Fund. During the six months ended March 31, 2018, High Income Fund engaged in forward foreign currency transactions for hedging purposes.

Intermediate Duration Bond Fund is subject to the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income securities. A Fund will be subject to increased interest rate risk to the extent that it invests in fixed-income securities with longer maturities or durations, as compared to investing in fixed-income securities with shorter maturities or durations. The Fund may use futures contracts to

Notes to Financial Statements (continued)

hedge against changes in interest rates and to manage its duration in order to control interest rate risk without having to buy or sell portfolio securities. During the six months ended March 31, 2018, Intermediate Duration Bond Fund used futures contracts for hedging purposes and to manage duration.

The following is a summary of derivative instruments for High Income Fund as of March 31, 2018, as reflected within the Statements of Assets and Liabilities:

	Unrealized appreciation on forward foreign <u>currency contracts</u>
<u>Assets</u>

	\$(334,910)
<u>Net Change in Unrealized</u>	Futures
<u>Appreciation (Depreciation) on:</u>	contracts

As the Funds value their derivatives at fair value and recognize changes in fair value through the Statements of Operations, they do not qualify for hedge accounting under authoritative guidance for derivative instruments. The Funds' investments in derivatives may represent an economic hedge; however, they are considered to be non-hedge transactions for the purpose of these disclosures.

The volume of forward foreign currency contract and futures contract activity, as a percentage of net assets, based on gross month-end notional amounts outstanding during the period, including long and short positions at absolute value, was as follows for the six months ended March 31, 2018:

<u>High Income Fund</u>	<u>Forwards</u>
Average Notional Amount Outstanding	1.13%
Highest Notional Amount Outstanding	1.61%
Lowest Notional Amount Outstanding	0.95%
Notional Amount Outstanding as of March 31, 2018	1.50%
<u>Intermediate Duration Bond Fund</u>	<u>Futures</u>
Average Notional Amount Outstanding	5.10%
Highest Notional Amount Outstanding	5.18%
Lowest Notional Amount Outstanding	4.93%
Notional Amount Outstanding as of March 31, 2018	5.18%

Notional amounts outstanding at the end of the prior period are included in the average notional amount outstanding.

Unrealized gain and/or loss on open forwards and futures is recorded in the Statements of Assets and Liabilities. The aggregate notional values of forward and futures contracts are not recorded in the Statements of Assets and Liabilities, and therefore are not included in the Funds' net assets.

Over-the-counter derivatives, including forward foreign currency contracts, are entered into pursuant to International Swaps and Derivatives Association, Inc. ("ISDA") agreements negotiated between the Funds and their counterparties. ISDA

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

agreements typically contain, among other things, terms for the posting of collateral and master netting provisions in the event of a default or other termination event. Collateral is posted by a Fund or the counterparty to the extent of the net mark-to-market exposure to the other party of all open contracts under the agreement, subject to minimum transfer requirements. Master netting provisions allow the Funds and the counterparty, in the event of a default or other termination event, to offset amounts owed by each related to derivative contracts, including any posted collateral, to one net amount payable by either the Funds or the counterparty. The Funds' ISDA agreements typically contain provisions that allow a counterparty to terminate open contracts early if the NAV of a Fund declines beyond a certain threshold. For financial reporting purposes, the Funds do not offset derivative assets and liabilities, and any related collateral received or pledged, on the Statements of Assets and Liabilities.

As of March 31, 2018, gross amounts of over-the-counter derivative assets and liabilities not offset in the Statements of Assets and Liabilities and the related net amounts after taking into account master netting arrangements, by counterparty, are as follows:

High Income Fund

<u>Counterparty</u>	<u>Gross Amounts of Assets</u>	<u>Offset Amount</u>	<u>Net Asset Balance</u>	<u>Collateral (Received)/ Pledged</u>	<u>Net Amount</u>
HSBC Bank USA	\$ 2,257	\$(1,331)	\$ 926	\$ —	\$ 926

<u>Counterparty</u>	<u>Gross Amounts of Liabilities</u>	<u>Offset Amount</u>	<u>Net Liability Balance</u>	<u>Collateral (Received)/ Pledged</u>	<u>Net Amount</u>
Bank of America, N.A.	\$(373,402)	\$ —	\$(373,402)	\$270,000	\$(103,402)
HSBC Bank USA	(1,331)	1,331	—	—	—
	<u>\$(374,733)</u>	<u>\$ 1,331</u>	<u>\$(373,402)</u>	<u>\$270,000</u>	<u>\$(103,402)</u>

The actual collateral received or pledged, if any, may exceed the amounts shown in the table due to overcollateralization. Timing differences may exist between when contracts under the ISDA agreements are marked-to-market and when collateral moves. The ISDA agreements include tri-party control agreements under which collateral is held for the benefit of the secured party at a third party custodian, State Street Bank.

Counterparty risk is managed based on policies and procedures established by the Fund's adviser. Such policies and procedures may include, but are not limited to, minimum counterparty credit rating requirements, monitoring of counterparty credit default swap spreads and posting of collateral. A Fund's risk of loss from counterparty

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

credit risk on over-the-counter derivatives is generally limited to the Fund's aggregated unrealized gains and the amount of any collateral pledged to the counterparty, which may be offset by any collateral posted to the Fund by the counterparty. ISDA master agreements can help to manage counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under these ISDA agreements, collateral is routinely transferred if the total net exposure in respect of certain transactions, net of existing collateral already in place, exceeds a specified amount (typically \$250,000, depending on the counterparty). With exchange-traded derivatives, there is minimal counterparty credit risk to the Fund because the exchange's clearinghouse, as counterparty to these instruments, stands between the buyer and the seller of the contract. Credit risk still exists in exchange-traded derivatives with respect to initial and variation margin that is held in a broker's customer accounts. While brokers are required to segregate customer margin from their own assets, in the event that a broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the broker for all its clients, U.S. bankruptcy laws will typically allocate that shortfall on a pro rata basis across all of the broker's customers, potentially resulting in losses to the Fund. Based on balances reflected on each Fund's Statement of Assets and Liabilities, the following table shows (i) the maximum amount of loss due to credit risk that, based on the gross fair value of the financial instrument, the Fund would incur if parties (including OTC derivative counterparties and brokers holding margin for exchange-traded derivatives) to the relevant financial instruments failed completely to perform according to the terms of the contracts and the collateral or other security, if any, for the amount due proved to be of no value to the Fund, and (ii) the amount of loss that the Fund would incur after taking into account master netting provisions pursuant to ISDA agreements, as of March 31, 2018:

<u>Fund</u>	<u>Maximum Amount of Loss - Gross</u>	<u>Maximum Amount of Loss - Net</u>
High Income Fund	\$272,257	\$ 926
Intermediate Duration Bond Fund	68,750	68,750

5. Purchases and Sales of Securities. For the six months ended March 31, 2018, purchases and sales of securities (excluding short-term investments and including paydowns) were as follows:

6. Management Fees and Other Transactions with Affiliates.

a. Management Fees. Loomis, Sayles & Company, L.P. (“Loomis Sayles”) serves as investment adviser to each Fund. Under the terms of the management agreements, each Fund pays a management fee at the following annual rates, calculated daily and payable monthly, based on each Fund’s average daily net assets:

Fund	Percentage of Average Daily Net Assets		
	First	Next	Over
	<u>\$500 million</u>	<u>\$1.5 billion</u>	<u>\$2 billion</u>
High Income Fund	0.6000%	0.6000%	0.6000%
Intermediate Duration Bond Fund	0.2500%	0.2500%	0.2500%
Limited Term Government and Agency Fund	0.3750%	0.3500%	0.3000%

Loomis Sayles has given binding undertakings to the Funds to waive management fees and/or reimburse certain expenses to limit the Funds’ operating expenses, exclusive of acquired fund fees and expenses, brokerage expenses, interest expense, taxes, organizational and extraordinary expenses such as litigation and indemnification expenses. These undertakings are in effect until January 31, 2019, may be terminated before then only with the consent of the Funds’ Board of Trustees, and are reevaluated on an annual basis. Management fees payable, as reflected on the Statements of Assets and Liabilities, is net of waivers and/or expense reimbursements, if any, pursuant to these undertakings. Waivers/reimbursements that exceed management fees payable are reflected on the Statements of Assets and Liabilities as receivable from investment adviser.

For the six months ended March 31, 2018 the expense limits as a percentage of average daily net assets under the expense limitation agreements were as follows:

Fund	Expense Limit as a Percentage of Average Daily Net Assets			
	<u>Class A</u>	<u>Class C</u>	<u>Class N</u>	<u>Class Y</u>
High Income Fund	1.05%	1.80%	0.75%	0.80%
Intermediate Duration Bond Fund	0.65%	1.40%	—	0.40%
Limited Term Government and Agency Fund	0.80%	1.55%	0.50%	0.55%

Loomis Sayles shall be permitted to recover expenses borne under the expense limitation agreements (whether through waiver of its management fees or otherwise) on a class by class basis in later periods to the extent the annual operating expenses of a class fall below a class’ expense limits, provided, however, that a class is not obligated to pay such waived/reimbursed fees or expenses more than one year after the end of the fiscal year in which the fees or expenses were waived/reimbursed.

For the six months ended March 31, 2018, class-specific expenses have been reimbursed as follows:

Fund	Reimbursement ¹				
	Class A	Class C	Class N	Class Y	Total
Limited Term Government and Agency Fund	\$5,339	\$586	\$ —	\$5,209	\$11,134

¹ Waiver/expense reimbursements are subject to possible recovery until September 30, 2019.

No expenses were recovered for any of the Funds during the six months ended March 31, 2018 under the terms of the expense limitation agreements.

Certain officers and employees of Loomis Sayles are also officers or Trustees of the Trust. Loomis Sayles' general partner is indirectly owned by Natixis Investment Managers, L.P. ("Natixis"), which is part of Natixis Investment Managers, an international asset management group based in Paris, France.

b. Service and Distribution Fees. Natixis Distribution, L.P. ("Natixis Distribution"), which is a wholly-owned subsidiary of Natixis, has entered into a distribution agreement with the Trusts. Pursuant to this agreement, Natixis Distribution serves as principal underwriter of the Funds of the Trusts.

Pursuant to Rule 12b-1 under the 1940 Act, the Trusts have adopted a Service Plan relating to each Fund's Class A shares (the "Class A Plans") (effective August 31, 2016 for Intermediate Duration Bond Fund), and a Distribution and Service Plan relating to each Fund's Class B and Class C shares (the "Class C Plans").

Under the Class A Plans, each Fund pays Natixis Distribution a monthly service fee at an annual rate not to exceed 0.25% of the average daily net assets attributable to the Fund's Class A shares, as reimbursement for expenses incurred by Natixis Distribution in providing personal services to investors in Class A shares and/or the maintenance of shareholder accounts.

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

Under the Class C Plans, each Fund pays Natixis Distribution a monthly service fee at an annual rate not to exceed 0.25% of the average daily net assets attributable to the Fund's Class C shares, as compensation for services provided by Natixis Distribution in providing personal services to investors in Class C shares and/or the maintenance of shareholder accounts.

Also under the Class C Plans, each Fund pays Natixis Distribution a monthly distribution fee at the annual rate of 0.75% of the average daily net assets attributable to the Fund's Class C shares, as compensation for services provided by Natixis Distribution in connection with the marketing or sale of Class C shares.

For the six months ended March 31, 2018, the service and distribution fees for each Fund were as follows:

<u>Fund</u>	<u>Service Fees</u>		<u>Distribution Fees</u>
	<u>Class A</u>	<u>Class C</u>	<u>Class C</u>
High Income Fund	\$ 38,690	\$12,857	\$ 38,571
Intermediate Duration Bond Fund	27,206	3,992	11,974
Limited Term Government and Agency Fund	409,388	48,725	146,174

c. Administrative Fees. Natixis Advisors, L.P. ("Natixis Advisors") provides certain administrative services for the Funds and contracts with State Street Bank to serve as sub-administrator. Natixis Advisors is a wholly-owned subsidiary of Natixis. Pursuant to an agreement among Natixis Funds Trusts, Loomis Sayles Funds Trusts, Natixis ETF Trust and Natixis Advisors, each Fund pays Natixis Advisors monthly its *pro rata* portion of fees equal to an annual rate of 0.0575% of the first \$15 billion of the average daily net assets of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, 0.0500% of the next \$15 billion, 0.0400% of the next \$30 billion, 0.0350% of the next \$30 billion and 0.0325% of such assets in excess of \$90 billion, subject to an annual aggregate minimum fee for the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust of \$10 million, which is reevaluated on an annual basis.

For the six months ended March 31, 2018, the administrative fees for each Fund were as follows:

<u>Fund</u>	<u>Administrative Fees</u>
High Income Fund	\$ 38,895
Intermediate Duration Bond Fund	40,261
Limited Term Government and Agency Fund	161,392

d. Sub-Transfer Agent Fees. Natixis Distribution has entered into agreements, which include servicing agreements, with financial intermediaries that provide recordkeeping, processing, shareholder communications and other services to customers of the intermediaries that hold positions in the Funds and has agreed to compensate the

Notes to Financial Statements (continued)

March 31, 2018 (Unaudited)

intermediaries for providing those services. Intermediaries transact with the Funds primarily through the use of omnibus accounts on behalf of their customers who hold positions in the Funds. These services would have been provided by the Funds' transfer agent and other service providers if the shareholders' accounts were maintained directly at the Funds' transfer agent. Accordingly, the Funds have agreed to reimburse Natixis Distribution for all or a portion of the servicing fees paid to these intermediaries. The reimbursement amounts (sub-transfer agent fees) paid to Natixis Distribution are subject to a current per-account equivalent fee limit approved by the Funds' Board of Trustees, which is based on fees for similar services paid to the Funds' transfer agent and other service providers. Class N shares do not bear such expenses.

For the six months ended March 31, 2018, the sub-transfer agent fees (which are reflected in transfer agent fees and expenses in the Statements of Operations) for each Fund were as follows:

<u>Fund</u>	<u>Sub-Transfer Agent Fees</u>
High Income Fund	\$ 89,257
Intermediate Duration Bond Fund	45,427
Limited Term Government and Agency Fund	183,083

As of March 31, 2018, the Funds owe Natixis Distribution the following reimbursements for sub-transfer agent fees (which are reflected in the Statements of Assets and Liabilities as payable to distributor):

<u>Fund</u>	<u>Reimbursements of Sub-Transfer Agent Fees</u>
Intermediate Duration Bond Fund	\$ 1,272
Limited Term Government and Agency Fund	11,353

As of March 31, 2018, Natixis Distribution owes the High Income Fund \$3,479 for overpayments of sub-transfer agent fees (which are reflected in the Statement of Assets and Liabilities as receivable from distributor).

Sub-transfer agent fees attributable to Class A, Class C and Class Y are allocated on a *pro rata* basis to each class based on the relative net assets of each class to the total net assets of those classes.

e. Commissions. Commissions (including CDSCs) on Fund shares retained by Natixis Distribution during the six months ended March 31, 2018 were as follows:

<u>Fund</u>	<u>Commissions</u>
High Income Fund	\$ 1,786
Intermediate Duration Bond Fund	88
Limited Term Government and Agency Fund	11,455

f. Trustees Fees and Expenses. The Trusts do not pay any compensation directly to their officers or Trustees who are directors, officers or employees of Natixis Advisors, Natixis Distribution, Natixis or their affiliates. The Chairperson of the Board of Trustees receives a retainer fee at the annual rate of \$340,000. The Chairperson does not receive any meeting attendance fees for Board of Trustees meetings or committee meetings that he attends. Each Independent Trustee (other than the Chairperson) receives, in the aggregate, a retainer fee at the annual rate of \$170,000. Each Independent Trustee also receives a meeting attendance fee of \$10,000 for each meeting of the Board of Trustees that he or she attends in person and \$5,000 for each meeting of the Board of Trustees that he or she attends telephonically. In addition, the chairperson of the Contract Review Committee and the chairperson of the Audit Committee each receive an additional retainer fee at the annual rate of \$20,000. The chairperson of the Governance Committee receives an additional retainer fee at the annual rate of \$12,000. Each Contract Review Committee member is compensated \$6,000 for each Committee meeting that he or she attends in person and \$3,000 for each meeting that he or she attends telephonically. Each Audit Committee member is compensated \$6,000 for each Committee meeting that he or she attends in person and \$3,000 for each meeting that he or she attends telephonically. These fees are allocated among the funds in the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust based on a formula that takes into account, among other factors, the relative net assets of each fund. Trustees are reimbursed for travel expenses in connection with attendance at meetings.

Prior to January 1, 2018, the Chairperson of the Board received a retainer fee at the annual rate of \$325,000 and each Independent Trustee (other than the Chairperson) received, in the aggregate, a retainer fee at the annual rate of \$155,000, the chairperson of the Contract Review Committee and Audit Committee each received an additional retainer fee at the annual rate of \$17,500 and the chairperson of the Governance Committee received an additional retainer fee at the annual rate of \$10,000. All other Trustee fees remained unchanged.

A deferred compensation plan (the "Plan") is available to the Trustees on a voluntary basis. Deferred amounts remain in the Funds until distributed in accordance with the provisions of the Plan. The value of a participating Trustee's deferral account is based on theoretical investments of deferred amounts, on the normal payment dates, in certain funds of the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust as designated by the participating Trustees. Changes in the value of participants' deferral accounts are allocated *pro rata* among the funds in the Natixis Funds Trusts, Loomis Sayles Funds Trusts and Natixis ETF Trust, and are normally reflected as Trustees' fees and expenses in the Statements of Operations. The portions of the accrued obligations allocated to the Funds under the Plan are reflected as Deferred Trustees' fees in the Statements of Assets and Liabilities.

g. Affiliated Ownership. As of March 31, 2018, the percentage of each Fund's net assets owned by affiliates is as follows:

<u>Limited Term Government and Agency Fund</u>	<u>Percentage of Net Assets</u>
Loomis Sayles Employees' Profit Sharing Retirement Plan	0.52%
Natixis Sustainable Future 2015 Fund	0.08%
Natixis Sustainable Future 2020 Fund	0.07%

Natixis Sustainable Future 2060 Fund	less than 0.01%

<u>Intermediate Duration Bond Fund</u>	<u>Percentage of Net Assets</u>
Loomis Sayles Employees' Profit Sharing Retirement Plan	0.87%

Investment activities of affiliated shareholders could have material impacts on the Funds.

h. Reimbursement of Transfer Agent Fees and Expenses. Natixis Advisors has given a binding contractual undertaking to the High Income Fund and Limited Term Government and Agency Fund to reimburse any and all transfer agency expenses for the Funds' Class N shares. This undertaking is in effect through January 31, 2019 and is not subject to recovery under the expense limitation agreement described above.

For the six months ended March 31, 2018, Natixis Advisors reimbursed the Funds for transfer agency expenses as follows:

<u>Fund</u>	<u>Reimbursement of Transfer Agency Expenses</u> <u>Class N</u>
High Income Fund	\$ 86
Limited Term Government and Agency Fund	138

i. Payment by Affiliates. For the six months ended March 31, 2018, Loomis Sayles reimbursed High Income Fund \$4,468 in connection with a trading error.

7. Class-Specific Transfer Agent Fees and Expenses. Transfer agent fees and expenses attributable to Class A, Class C, and Class Y are allocated on a *pro rata* basis

Notes to Financial Statements (continued)

to each class based on the relative net assets of each class to the total net assets of those classes. Transfer agent fees and expenses attributable to Class N are allocated to Class N.

Intermediate Duration Bond Fund allocates transfer agent fees and expenses on a *pro rata* basis based on the relative net assets of each class to the total net assets of those classes.

For the six months ended March 31, 2018, the Funds incurred the following class-specific transfer agent fees and expenses (including sub-transfer agent fees, where applicable):

Fund	Transfer Agent Fees and Expenses			
	Class A	Class C	Class N	Class Y
High Income Fund	\$ 17,747	\$ 5,890	\$ 86	\$ 76,050
Limited Term Government and Agency Fund	143,843	17,102	138	158,064

8. Line of Credit. Each Fund, together with certain other funds of Natixis Funds Trusts and Loomis Sayles Funds Trusts, entered into a 364-day, \$400,000,000 syndicated, committed, unsecured line of credit with Citibank, N.A. to be used for temporary or emergency purposes only. Any one Fund may borrow up to the full \$400,000,000 under the line of credit (as long as all borrowings by all Funds in the aggregate do not exceed the \$400,000,000 limit at any time), subject to each Fund's investment restrictions and its contractual obligations under the line of credit. Interest is charged to the Funds at a rate equal to the greater of the eurodollar or the federal funds rate plus 1.00%. In addition, a commitment fee of 0.15% per annum, payable on the last business day of each month, is accrued and apportioned among the participating funds based on their average daily unused portion of the line of credit. The Funds paid an arrangement fee, an upfront fee, and other fees in connection with the new line of credit agreement, which are being amortized over a period of 364 days and are reflected as miscellaneous expenses on the Statements of Operations. The unamortized balance is reflected as prepaid expenses on the Statements of Assets and Liabilities.

For the six months ended March 31, 2018, none of the Funds had borrowings under this agreement.

Effective April 12, 2018, the line of credit with Citibank, N.A. expired, and the Funds, together with certain other funds of Natixis Funds Trusts, Loomis Sayles Funds Trusts, and Natixis ETF Trust, entered into a \$400,000,000 committed unsecured line of credit provided by State Street Bank and Trust. Any one Fund may borrow up to \$350,000,000 under the line of credit agreement (as long as all borrowings by all Funds in the aggregate do not exceed the \$400,000,000 limit at any time), subject to each Fund's investment restrictions and its contractual obligations under the line of credit. Interest is charged to the Funds based upon the terms set forth in the agreement. In addition, a commitment fee of 0.15% per annum, payable at the end of each calendar quarter, is

accrued and apportioned among the participating funds based on their average daily unused portion of the line of credit.

9. Concentration of Risk. Limited Term Government and Agency Fund’s investments in mortgage-related and asset-backed securities are subject to certain risks not associated with investments in other securities. Mortgage-related and asset-backed securities are subject to the risk that unexpected changes in interest rates will have a direct effect on expected maturity. A shortened maturity may result in the reinvestment of prepaid amounts in securities with lower yields than the original obligations. An extended maturity may result in a reduction of a security’s value.

Each Fund’s investments in foreign securities are subject to foreign currency fluctuations, higher volatility than U.S. securities, varying degrees of regulation and limited liquidity. Greater political, economic, credit and information risks are also associated with foreign securities.

10. Concentration of Ownership. From time to time, a Fund may have a concentration of one or more accounts constituting a significant percentage of shares outstanding. Investment activities by holders of such accounts could have material impacts on the Funds. As of March 31, 2018, based on management’s evaluation of the shareholder account base, the Funds had accounts representing controlling ownership of more than 5% of the Fund’s total outstanding shares. The number of such accounts, based on accounts that represent more than 5% of an individual class of shares, and the aggregate percentage of net assets represented by such holdings were as follows:

<u>Fund</u>	<u>Number of 5% Account Holders</u>	<u>Percentage of Ownership</u>
High Income Fund	3	34.75%
Intermediate Duration Bond Fund	3	22.11%

Omnibus shareholder accounts for which Natixis Advisors understands that the intermediary has discretion over the underlying shareholder accounts or investment models where a shareholder account may be invested for a non-discretionary customer are included in the table above. For other omnibus accounts, the Funds do not have information on the individual shareholder accounts underlying the omnibus accounts; therefore, there could be other 5% shareholders in addition to those disclosed in the table above.
