WCM INVESTMENT MANAGEMENT

OBJECTIVE

Long-term capital appreciation.

OUR INVESTMENT STRATEGY

The Fund will invest primarily in equity securities of companies located throughout the world. Normally the Fund will invest at least 40% of its net assets in equity securities of companies organized, headquartered, or doing a substantial amount of business outside the United States. The Fund may invest in companies of any size; however, investments will generally be in companies with large capitalizations.

OUR INVESTMENT PROCESS

We use a bottom-up approach that seeks to identify companies with attractive fundamentals, such as long-term growth in revenue, earnings, and show a high probability for superior future growth. We look for companies that are industry leaders with:

- Sustainable competitive advantages
- Corporate culture emphasizing strong, quality and experienced management
- Low or no debt
- Attractive relative valuation

OUR PHILOSOPHY

WCM believes that attractive returns can only be achieved by structuring portfolios distinct from the market indices. As a result, our portfolio typically holds around 30–40 companies, concentrating on our best ideas. Our focus is on industry-leading global organizations, led by visionary management teams with sound business strategies. These companies often dominate their industry, and it is our belief that they will continue that domination well into the future. Thus, when selecting equity investments, our minimum time horizon is 3–5 years.

* *Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. For the most recent month-end performance, please call 1.888.988.9801. Periods greater than one year are annualized. Return figures include the reinvestment of all dividends and income. It is not possible to invest directly in an index.*

** *Inception Date: June 28, 2013*

*** *The Fund's advisor has contractually agreed to waive its fees and/or pay for expenses of the Fund to ensure that total annual fund operating expenses (excluding taxes, leverage interest, brokerage commissions, dividend expenses on short sales, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation expenses) do not exceed 1.30% and 1.05% of average daily net assets of the Fund's Investor Class and Institutional Class shares, respectively. This agreement is in effect until August 31, 2024, and it may be terminated before that date only by the Trust's Board of Trustees. The Fund's advisor is permitted to seek reimbursement from the Fund for a period ending three full fiscal years after the date of the waiver or payment.*

Before investing, consider the fund's investment objectives, risk, charges, and expenses. Visit www.wcminvestfunds.com, im.natixis.com or call 1.888.988.9801 for a prospectus or a summary prospectus containing this and other information. Read it carefully.

Foreign and emerging market securities may be subject to greater political, economic, environmental, credit, currency and information risks. Foreign securities may be subject to higher volatility than US securities, due to varying degrees of regulation and limited liquidity. These risks are magnified in emerging markets. Equity securities are volatile and can decline significantly in response to broad market and economic conditions. Currency exchange rates between the US dollar and foreign currencies may cause the value of the Fund's investments to decline. Growth stocks may be more sensitive to market conditions than other equities, as their prices strongly reflect future expectations. Concentrated investments in a particular region, sector, or industry may be more vulnerable to adverse changes in that industry or the market as a whole.
