WCM INVESTMENT MANAGEMENT

WCM International Equity Fund Fact Sheet – December 31, 2023

Objective

Long-term capital appreciation.

Our Investment Strategy

Normally the Fund will invest at least 75% of its net assets in equity securities of non-U.S. domiciled companies or depository receipts of non-U.S. domiciled companies. The Fund may invest in companies of any size.

Our Investment Process

We use a bottom up approach that seeks to identify companies with attractive fundamentals. Attractive fundamentals are defined as companies with strong competitive advantages, substantial runway for organic growth and ample free cash flow generation.

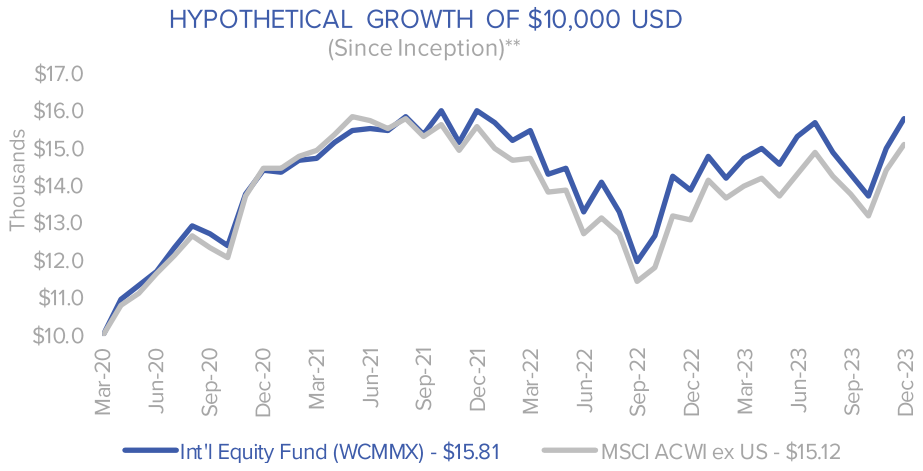

From this pool of companies, we assemble a properly diversified portfolio across various Industries, geographies, and business cycles.

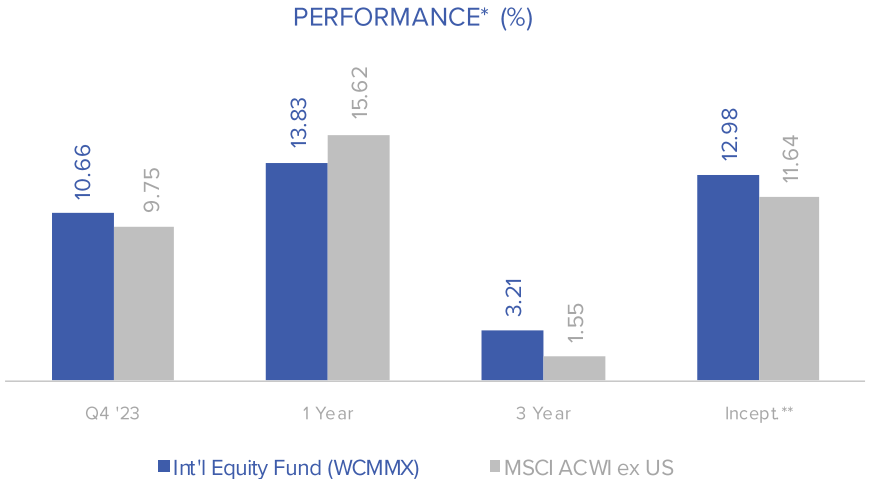

Our Philosophy

WCM believes that small teams operating in a healthy, long-term oriented culture can produce superior risk-adjusted returns when compared to market indices. Attractive returns can only be achieved by structuring portfolios distinct from the market indices.

In this portfolio, we focus on sustainability factors that are material to the long-term financial performance of a firm. We believe that by focusing on sustainability, we can improve portfolio performance while reducing risk. Our time horizon for selecting equity investments is 5 or more years. Our portfolio typically holds 30—60 companies, concentrating on our best ideas.

Performance

*Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. For the most recent month-end performance, please call 1.888.988.9801. Periods greater than one year are annualized. Return figures include the reinvestment of all dividends and income.

**Inception Date: March 31, 2020

***The Fund's advisor has contractually agreed to waive its fees and/or pay for expenses of the Fund to ensure that total annual fund operating expenses (excluding taxes, leverage interest, brokerage commissions, dividend expenses on short sales, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation expenses) do not exceed 0.85% and 1.10% of average daily net assets of the Fund's Investor Class and Institutional Class shares, respectively. This agreement is in effect until August 31, 2033, and it may be terminated before that date only by the Trust's Board of Trustees. The Fund's advisor is permitted to seek reimbursement from the Fund for a period ending three full fiscal years after the date of the waiver or payment.

Additionally, he served as Global Equity Analyst at Turner Investments and an intern at BlackRock. Pablo graduated *summa cum laude* from Drexel University (Pennsylvania) with a B.S. in Business Administration and a concentration in Finance and Accounting.

Before investing, consider the fund's investment objectives, risk, charges, and expenses. Visit www.wcminvestfunds.com, im.natixis.com or call 1.888.988.9801 for a prospectus or a summary prospectus containing this and other information. Read it carefully.

Natixis Distributors LLC (fund distributor) and WCM Investment Management are affiliated. Natixis Distribution, LLC (Member FINRA/SIPC) is a limited purpose broker-dealer and the distributor of various registered investment companies for which advisory services are provided by affiliates of Natixis Investment Managers. Sustainable investing focuses on investments in companies that relate to certain sustainable development themes and demonstrate adherence to environmental, social and governance (ESG) practices; therefore the universe of investments may be limited and investors may not be able to take advantage of the same opportunities or market trends as investors that do not use such criteria. This could have a negative impact on an investor's overall performance depending on whether such investments are in or out of favor. Foreign and emerging market securities may be subject to greater political, economic, environmental, credit, currency and information risks. Foreign securities may be subject to higher volatility than US securities, due to varying degrees of regulation and limited liquidity. These risks are magnified in emerging markets. Equity securities are volatile and can decline significantly in response to broad market and economic conditions. Currency exchange rates between the US dollar and foreign currencies may cause the value of the Fund's investments to decline.. Concentrated investments in a particular region, sector, or industry may be more vulnerable to adverse changes in that industry or the market as a whole.
